

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

My husband and I are senior citizens. I use my wireless phone for safety and security only. I am concerned that this proposal could make my current service unaffordable. I don't want to lose these benefits so that big businesses can pay less than their fair share.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I urge you to reject the proposal to move the USF collection system to a flat-fee.
Keep the USF Fair!

Sincerely,

melanie Wallner
